## Potentissimo Monarchæ CAROLO II DEI GRATIA Magnæ BRITANNIÆ FRANCIÆ & HIBERNIÆ REGI Fidei Defensori«

(Iniversitas Oxongensas coelo Sculptorio delineata, sub facratissimis Majestatis veftra Auspicys, quibus opes omnes suas cultumq, debet, terrarum Orbi exhiberi gestit: ut cognoscant difsitifsimæ gentes, quantus apud Britannias veftras Artibus sit bonos, & quam ampla Literis præfidia; pariterg discant, cujus potentifsimi Monarchæ Imperio, Musis conceditur erudito frui Otio, & perpetuos agere Triumphos. Utina doctifsimorum virorum hisce in Athenis verfantium omnigenam Scientiam, fanctifsimos Mores, indefessam Industriam; quæq ipsis fatali clade nuper stetit, inconcussam erga Principem sidem (are & Aternitate dignissima) tabellis hisce inferere potuissem. At ista, non Chalcographi ftylum, sed Historici calamum deposcunt. Suffecerit mihi, si hoc Artis studija mei specimine celeberrima Universitati, qua in sinum suum me recepit, non indignas vices rependero: et augustifsimi Principis Nomen seræ posteritati commendaturus, haud prorfus ingratum munus porrexifse videar

## SPECTATORI INGENUO,

Prodit in lucem, diu expectatum Opus, annis abhinc aliquot fusceptum, &, aspirante Divino Numine, tandem pro viribus absolutum: quo labore, quantis impenfis, quali demum fuccefsu, penes æquos rerum æstimatores

fuerit judicium.

Occafionem huic instituto prabuit tacita quadam indignatio, cum viderem rustica passim tuguriola, & ignobiles pagos, summorum Artificum calo & penicillis inclarescere; Oxonium interim, celeberrimum Musarum domicilium, quo pulchrius aut beatius quidpiam Sol non conspicit, intactu prateriri; Ilbi non modò Universitas sloret optimis Disciplinis, et ordinatissimo Iuventutis regimine exculta; verum etiam singula Collegia Pralectionibus & Exercitiis Scholasticis, omnimodàg, Linguarum et Scientiarum institutione, totidem fere Academias exhibent. Omnia autem amplissimis dotata Proventibus, et (quòd ad Provinciam meam maximè spectat) magnificis è quadrato lapide Ædificiis exornata, piam et generosam Anglicanæ gentis indolem, aliis haud facilè aquiparandam, ostendunt.

Ad opus itáq me accinxi; id adnifus, ut si forte Divinæ hoc ac humanæ Sapientiæ Sacrarium illustrare pro dignitate non daretur (cujus omnibus numeris confummatifsimus decor cultu adscititio nec indiget, nec eundem facile admittit) Spartam tamen illam, quam Illustrissimæ Universitatis beneficio nactus sum, tantillum saltem ornarem, ejusdemque, ultra tituli formulas audirem

Chalcographus.

Porrò, ne oculos duntaxat pascere, mentem verò vacuam dimififse viderer, Historiolas subjeci, quibus rerum et locorum quæ hic descripta sunt, status et origo, ea brevitate quam Operis ratio postulat, enarrantur. Plura cognoscendi

cupidos ad Antiquitatum Oxoniensium Historias remitto.

Caterum, si quis benignam huc mentem, et non lividum attulerit oculum, efficiet, ut nec nos sculpsisse, nec illum inspexisse pæniteat; novumq, addetur calcar ad alia hujus generis, quæ adhuc in florentissimo hoc Regno neglecta latent alacriter, perrecturo.
